

## POPULATION : MONTANA

## COMPOSITION AND CHARACTERISTICS OF THE POPULATION

Prepared under the supervision of WM. C. HUNT, Chief Statistician for Population

The first population bulletin for Montana gave the number of inhabitants by counties and minor civil divisions, the decennial increase and the density of population, and the proportions urban and rural. The present bulletin deals with the composition and characteristics of the population. The two bulletins cover all the principal topics of the population census except occupations and ownership of homes.

**Description of the tables.**—The greater part of this second bulletin consists of four general tables, which present statistics of color, nativity, parentage, sex, citizenship, illiteracy, school attendance, and dwellings and families, as follows: Table I for the state and counties; Table II for Butte, the only city of more than 25,000 inhabitants; Table III for cities of 10,000 to 25,000; and Table IV for places of 2,500 to 10,000.

A series of summary tables (numbered 1 to 14) reproduces from the general tables the more important state and city totals, and presents also certain additional data relative to state of birth, age, and marital condition.

On account of the wide differences in characteristics among the different classes of the population, the statistics on each subject are shown according to race, and for the whites according to nativity and parentage. Classification according to nativity and parentage is scarcely necessary for the other races, since nearly all negroes and Indians are native born of native parentage, and nearly all Chinese and Japanese either foreign born or of foreign parentage.

The white population is divided into four groups: (1) Native, native parentage—that is, having both parents born in the United States; (2) native, foreign parentage—having both parents born abroad; (3) native, mixed parentage—having one parent native and the other foreign born; (4) foreign born. As the second and third classes do not differ greatly in characteristics, they are combined in some of the tables; in a few cases all three native white classes are combined.

Since marked differences often exist between urban and rural communities with respect to the composition and characteristics of the population, the two classes are distinguished in connection with several of the subjects. Urban population, as defined by the Bureau of the Census, includes that of all incorporated places of 2,500 inhabitants or more, the remainder being classified as rural.

The census inquiry as to school attendance was merely as to whether the person enumerated had

attended any kind of school at any time between September 1, 1909, and the date of enumeration, April 15, 1910.

The Census Bureau classifies as illiterate any person 10 years of age or over who is unable to write, regardless of ability to read.

**Color and nativity (Table 1).**—Of the total population of Montana, 162,127, or 43.1 per cent, are native whites of native parentage; 106,809, or 28.4 per cent, are native whites of foreign or mixed parentage; 91,644, or 24.4 per cent, are foreign-born whites; 10,745, or 2.9 per cent, are Indians; 2,870, or 0.7 per cent, are Chinese and Japanese; and 1,834, or 0.5 per cent, are negroes. In 1900 the percentage of native whites of native parentage was 38.2.

In the counties the percentage of foreign-born whites ranges from 12.9 in Gallatin to 35.3 in Silver Bow, the most populous county; it exceeds 25 in 8 of the 28 counties. Silver Bow County also has the highest percentage of native whites of foreign or mixed parentage (39.7), while Rosebud has the lowest (14.2); the proportion exceeds one-fourth in 18 counties. (See maps on page 7.)

Of the urban population, 40.3 per cent are native whites of native parentage; of the rural, 44.7 per cent. The corresponding proportions for native whites of foreign or mixed parentage are 31.5 and 26.7 per cent, respectively. The percentage of foreign-born whites is 26 in the urban population and 23.5 in the rural. The percentage of Chinese and Japanese is 1 in the urban and 0.6 in the rural; of negroes, 1.1 in the urban and 0.2 in the rural. Practically all of the Indians are in rural communities.

**Sex (Table 2).**—In the total population of the state there are 226,872 males and 149,181 females, or 152.1 males to 100 females. In 1900 the ratio was 160.3 to 100. Among native whites the ratio is 132.1 to 100; among foreign-born whites, 238.4 to 100. In the urban population there are 130.9 males to 100 females, and in the rural, 165.4.

**State of birth (Tables 3 and 4).**—Of the total native population—that is, population born in the United States—35.3 per cent were born in Montana and 64.7 per cent outside the state; of the native white population, 66.6 per cent were born outside the state; of the native Indians, 13.5 per cent; and of the native negro, 80.9 per cent. Persons born outside the state constitute approximately the same proportion of the native population in urban as in rural communities.

## POPULATION—MONTANA.

**Foreign nationalities** (Table 5).—Of the foreign-born white population of Montana, persons born in Canada represent 14.7 per cent; Ireland, 10.3; England, 9.8; Germany, 9.5; Austria, 9.1; Norway, 7.8; Italy, 7.2; Sweden, 7; Finland, 4.5; Scotland, 3.7; all other countries, 16.4. Of the total white stock of foreign origin, which includes persons born abroad and also natives having one or both parents born abroad, Canada contributed 14.9 per cent; Ireland, 14.3; Germany, 13.4; England, 10.4; Norway, 7; Austria, 6.5; Sweden, 5.9; Italy, 4; Scotland, 3.5; Finland, 3.3; Denmark, 2.

**Voting and militia ages** (Table 6).—The total number of males 21 years of age and over is 155,017, representing 41.2 per cent of the population. Of such males, 38.5 per cent are native whites of native parentage, 19.2 per cent native whites of foreign or mixed parentage, 38.8 per cent foreign-born whites, 1.8 per cent Indians, 1.7 per cent Chinese and Japanese, and .0.5 per cent negroes. Of the 59,313 foreign-born white males of voting age, 27,635, or 46.6 percent, are naturalized. Males of militia age—18 to 44—number 123,232.

**Age** (Tables 7, 8, and 12).—Of the total population, 10.2 per cent are under 5 years of age, 17 per cent from 5 to 14 years, inclusive, 19.4 per cent from 15 to 24, 36.4 per cent from 25 to 44, and 16.2 per cent 45 years of age and over. The foreign-born white population comprises comparatively few children, only 4 per cent of this class being under 15 years of age, while 78.8 per cent are 25 years of age and over. Of the native whites of foreign or mixed parentage, only 37.7 per cent are 25 and over, and of the native whites of native parentage, only 47.5 per cent.

The urban population shows a smaller proportion of children than the rural and a larger proportion of persons in the prime of life. Of the urban population, 39.3 per cent are from 25 to 44 years of age, inclusive, and of the rural population, 34.9 per cent.

**School attendance** (Table 9).—The total number of persons of school age—that is, from 6 to 20 years, inclusive—is 93,771, of whom 60,678, or 64.7 per cent, attended school. In addition to these, 936 persons under 6 and 1,141 of 21 and over attended school. For boys from 6 to 20 years, inclusive, the percentage attending school was 62; for girls, 67.7. For children from 6 to 14 years, inclusive, the percentage attending school was 82.7. The percentage for children of this age among native whites of foreign or mixed parentage was 86; among native whites of native parentage, 83.5; among negroes, 83.1; among foreign-born whites, 76.1; and among Indians, 47.2. (See Table I.) In urban communities the percentage of children of that age attending school was 86.6, and in rural, 80.8; for persons from 15 to 20 it was 40 and 35.7, respectively.

**Illiteracy** (Table 10).—There are 14,457 illiterates in the state, representing 4.8 per cent of the total population 10 years of age and over, as compared with

6.1 per cent in 1900. The percentage of illiteracy is 9.4 among foreign-born whites, 0.4 among native whites, 55.8 among Indians, and 7 among negroes.

For all classes combined, the percentage of illiterates is 3.3 in urban communities and 5.6 in rural. For each class separately the percentage is somewhat higher in rural than in urban communities.

For persons from 10 to 20 years, inclusive, whose literacy depends largely upon present school facilities and school attendance, the percentage of illiteracy is 2.3. (See Table I.)

**Marital condition** (Tables 11 and 13).—In the population 15 years of age and over, 52.4 per cent of the males are single and 26.3 per cent of the females. The percentage married is 42.5 for males and 65.1 for females, and the percentage widowed 3 and 7.5, respectively. The percentages of those reported as divorced, 0.7 and 0.8, respectively, are believed to be too small, because of the probability that many divorced persons class themselves as single or widowed.

That the percentage single is so much smaller for women than for men is due partly to the excess of males in the total population and partly to the fact that women marry younger. Thus 11.3 per cent of the females from 15 to 19 years of age are married, as compared with 0.5 per cent of the males, and 54.7 per cent of the females from 20 to 24 years of age are married, as compared with 12.5 per cent of the males. For those from 25 to 34 years the percentages are 80.4 and 42.5, respectively, and in the next age group, 35 to 44 years, 85.4 and 62.8. That there is a larger proportion of widows than of widowers may indicate that men more often remarry than women, but, since husbands are generally older than their wives, the marriage relationship is more often broken by death of the husband than by death of the wife.

For the main elements of the population the percentages of married persons among those 15 years of age and over are as follows: Foreign-born whites, 43.9 for males and 73.7 for females; native whites of native parentage, 43.5 and 64.9, respectively; native whites of foreign or mixed parentage, 36.5 and 57; Indians, 64.6 and 69.7; negroes, 43.1 and 57.4.

These percentages by no means indicate the relative tendency of the several classes as regards marriage. To determine that, the comparison should be made by age periods, since the proportion married in any class is determined largely by the proportion who have reached the marrying age. Similarly, the proportion widowed depends largely on the proportion past middle life. The percentage married for males is higher in urban communities, but for females it is higher in rural.

**Dwellings and families**.—The total number of dwellings in Montana is 82,811, and the total number of families 86,602, indicating that in comparatively few cases does more than one family occupy a dwelling. (See Table I.) The average number of persons per dwelling is 4.5, and the average number per family, 4.3.

## NOTES REGARDING CHANGES IN BOUNDARIES, ETC.

## COUNTIES.

- BROADWATER.—Organized from parts of Jefferson and Meagher in 1897.
- CARRON.—Organized from parts of Park and Yellowstone in 1895.
- CASCADE.—Organized from parts of Chouteau, Lewis and Clark, and Meagher in 1887 and part of Meagher annexed between 1890 and 1900.
- CHOUTEAU.—Parts taken to form Teton in 1893 and part of Cascade in 1887.
- CUSTER.—Name changed from Bighorn in 1877; part taken to form part of Yellowstone in 1881, and part, including Northern Cheyenne Indian Reservation and part of Crow Indian Reservation, taken to form Rosebud in 1901. (See also Note 1.)
- DAWSON.—Part taken to form Valley in 1893.
- DEER LODGE.—Parts taken to form Silver Bow in 1881, Granite in 1893, and Powell in 1901, and parts annexed to Flathead and Lewis and Clark between 1890 and 1900; part of Silver Bow annexed in 1903. (See also Note 2.)
- FERGUS.—Organized from part of Meagher in 1885.
- FLATHEAD.—Organized from part of Missoula in 1893 and part of Deer Lodge annexed between 1890 and 1900; part taken to form Lincoln in 1909. (See also Note 3.)
- GALLATIN.—Parts taken to form Park in 1887 and part of Yellowstone in 1881.
- GRANITE.—Organized from part of Deer Lodge in 1893.
- JEFFERSON.—Part taken to form part of Broadwater in 1897.
- LEWIS AND CLARK.—Part taken to form part of Cascade in 1887; parts of Deer Lodge and Meagher annexed between 1890 and 1900.
- LINCOLN.—Organized from part of Flathead in 1909. (See also Note 3.)
- MEAGHER.—Parts taken to form Fergus in 1885, part of Cascade in 1887, part of Sweet Grass in 1895, and part of Broadwater in 1897; parts annexed to Cascade and Lewis and Clark between 1890 and 1900.
- MISSOULA.—Parts taken to form Flathead and Ravalli in 1893 and Sanders in 1908. (See also Note 4.)
- PARK.—Organized from part of Gallatin in 1887; parts taken to form parts of Carbon and Sweet Grass in 1895.
- POWELL.—Organized from part of Deer Lodge in 1901. (See also Note 2.)
- RAVALLI.—Organized from part of Missoula in 1893.
- ROSEBUD.—Organized from part of Custer County, including Northern Cheyenne Indian Reservation and part of Crow Indian Reservation, in 1901. (See also Note 1.)
- SANDERS.—Organized from part of Missoula in 1905. (See also Note 4.)
- SILVER BOW.—Organized from part of Deer Lodge in 1881; part annexed to Deer Lodge in 1903.
- SWEET GRASS.—Organized from parts of Meagher, Park, and Yellowstone in 1895.
- TETON.—Organized from part of Chouteau in 1893.
- VALLY.—Organized from part of Dawson in 1893.
- YELLOWSTONE.—Organized from parts of Custer and Gallatin in 1881; parts taken to form parts of Carbon and Sweet Grass in 1895. (See also Note 1.)
- NOTE 1.—*Custer, Rosebud, and Yellowstone Counties combined.*—Total population: 1910, 45,052; 1900, including population (2,660) of Crow Indian Reservation, 16,768; increase, 1900-1910, 28,289; per cent of increase, 165.8. Urban population—1910, 14,728; same places in 1900, 5,159; per cent of increase, 185.5. Rural population—1910, 30,324; same territory in 1900, including population (2,660) of Crow Indian Reservation, 11,604; per cent of increase, 161.3. Urban population—1900, 3,231; rural population—1900, including population (2,660) of Crow Indian Reservation, 13,542. Per cent in places of 2,500 or more in 1910, 32.7. Per cent in places of 2,500 or more in 1900, 19.2.
- NOTE 2.—*Deer Lodge and Powell Counties combined.*—Total population: 1910, 18,892; 1900, 17,393; increase, 1900-1910, 1,499; per cent of increase, 8.6. Urban population—1910, 12,704; same places in 1900, 10,777; per cent of increase, 17.9. Rural population—1910, 6,188; same territory in 1900, 6,616; per cent of decrease, 6.5. Urban population—1900, 9,453; rural population—1900, 7,940. Per cent in places of 2,500 or more in 1910, 67.2. Per cent in places of 2,500 or more in 1900, 54.3.
- NOTE 3.—*Flathead and Lincoln Counties combined.*—Total population: 1910, 22,423; 1900, 9,375; increase, 1900-1910, 13,048; per cent of increase, 139.2. Urban population—1910, 5,549; same places in 1900, 2,526; per cent of increase, 119.7. Rural population—1910, 16,874; same territory in 1900, 6,849; per cent of increase, 146.4. Urban population—1900, 4,366; rural population—1900, 6,849. Per cent in places of 2,500 or more in 1910, 24.7. Per cent in places of 2,500 or more in 1900, 26.9.
- NOTE 4.—*Missoula and Sanders Counties combined.*—Total population: 1910, 27,309; 1900, 13,964; increase, 1900-1910, 13,345; per cent of increase, 95.6. Urban population—1910, 12,859; same places in 1900, 4,366; per cent of increase, 164.8. Rural population—1910, 14,440; same territory in 1900, 9,598; per cent of increase, 50.4. Urban population—1900, 4,366; rural population—1900, 9,598. Per cent in places of 2,500 or more in 1910, 47.1. Per cent in places of 2,500 or more in 1900, 31.3.
- NOTE 5.—In computing this increase the population of Indian reservations in 1900 has been deducted from the total population of the county in order to make that total comparable with the total for 1890, which does not include the population of Indian reservations. The population thus deducted in the several counties was as follows: Chouteau, 1,812; Custer, 1,454; Flathead, 13; Missoula, 2,129; Teton, 2,256; and Valley, 1,949.

## CITIES.

ANACONDA.—Part annexed to school district 10 in 1904.

BUTTE.—Parts of election precincts 6 and 34 annexed in 1902 and parts of precincts 35, 37, and 45 annexed in 1908.

## POPULATION : NEBRASKA

## COMPOSITION AND CHARACTERISTICS OF THE POPULATION

Prepared under the supervision of WM. C. HUNT, Chief Statistician for Population

The first population bulletin for Nebraska gave the number of inhabitants by counties and minor civil divisions, the decennial increase and the density of population, and the proportions urban and rural. The present bulletin deals with the composition and characteristics of the population. The two bulletins cover all the principal topics of the population census except occupations and ownership of homes.

**Description of the tables.**—The greater part of this second bulletin consists of five general tables, which present statistics of color, nativity, parentage, sex, citizenship, illiteracy, school attendance, and dwellings and families, as follows: Table I for the state and counties; Table II for the three cities of more than 25,000 inhabitants; Table III for Grand Island, the only city of 10,000 to 25,000 inhabitants; Table IV for places of 2,500 to 10,000; and Table V for wards of Omaha, the only city of more than 50,000.

A series of summary tables (numbered 1 to 15) reproduces from the general tables the more important state and city totals, and presents also certain additional data relative to state of birth, age, and marital condition.

On account of the wide differences in characteristics among different classes of the population, the statistics on each subject are shown according to race, and for the whites according to nativity and parentage. Classification according to nativity and parentage is scarcely necessary for the other races, since nearly all negroes and Indians are native born of native parentage, and nearly all Chinese and Japanese either foreign born or of foreign parentage.

The white population is divided into four groups: (1) Native, native parentage—that is, having both parents born in the United States; (2) native, foreign parentage—having both parents born abroad; (3) native, mixed parentage—having one parent native and the other foreign born; (4) foreign born. As the second and third classes do not differ greatly in characteristics, they are combined in some of the tables; in a few cases all three native white classes are combined.

Since marked differences often exist between urban and rural communities with respect to the composition and characteristics of the population, the two classes are distinguished in connection with several of the subjects. Urban population, as defined by the Bureau of the Census, includes that of all incorporated places of 2,500 inhabitants or more, the remainder being classified as rural.

The census inquiry as to school attendance was merely as to whether the person enumerated had attended any kind of school at any time between September 1, 1909, and the date of enumeration, April 15, 1910.

The Census Bureau classifies as illiterate any person 10 years of age or over who is unable to write, regardless of ability to read.

**Color and nativity** (Table 1).—Of the total population of Nebraska, 642,075, or 53.9 per cent, are native whites of native parentage; 362,353, or 30.4 per cent, are native whites of foreign or mixed parentage; 175,865, or 14.8 per cent, are foreign-born whites; and 7,689, or 0.6 per cent, are negroes. The corresponding percentages in 1900 were 51.9, 30.6, 16.6, and 0.6, respectively, the proportion of native whites of native parentage having increased somewhat during the decade.

In 7 of the 92 counties foreign-born whites constitute as much as one-fifth of the population, the proportion being highest (23.6 per cent) in Colfax County. In 54 counties, however, more than one-fourth of the population are native whites of foreign or mixed parentage, the maximum percentage (52.9) being that for Cuming County. (See maps, page 30.)

Of the urban population, 51.8 per cent are native whites of native parentage; of the rural population, 54.6 per cent. The corresponding proportions for native whites of foreign or mixed parentage are 27.6 and 31.3 per cent, respectively. The percentage of foreign-born whites is 18.3 in the urban population and 13.5 in the rural; the percentage of negroes is 2.1 in the urban and 0.1 in the rural.

**Sex** (Table 2).—In the total population of the state there are 627,782 males and 564,432 females, or 111.2 males to 100 females. In 1900 the ratio was 112.5 to 100. Among native whites the ratio is 107.1 to 100; and among foreign-born whites, 136.7 to 100. In the urban population there are 106.3 males to 100 females, and in the rural, 113.

**State of birth** (Tables 3 and 4).—Of the native population—that is, population born in the United States—58.6 per cent were born in Nebraska and 41.4 per cent outside the state. Of the native white population, 41.1 per cent were born outside the state, and of the native negro, 78.2 per cent. Persons born outside the state constitute a much larger proportion of the native population in urban than in rural communities.

**Foreign nationalities** (Tables 5 and 12).—Of the foreign-born white population of Nebraska, persons born in Germany represent 32.6 per cent; Austria, 13.9; Sweden, 13.2; Denmark, 7.8; Russia, 7.4; Ireland, 4.6; England, 4.6; Canada, 4.2; Italy, 2.2; Greece, 2; all other countries, 7.9. Of the total white stock of foreign origin, which includes persons born abroad and also natives having one or both parents born abroad, Germany contributed 37.5 per cent; Austria, 11.7; Sweden, 10.9; Ireland, 7; Denmark, 6; England, 5.7; Russia, 4.6; Canada, 4.5; Scotland, 1.6; Norway, 1.4; Switzerland, 1.2.

**Voting and militia ages** (Table 6).—The total number of males 21 years of age and over is 353,626, representing 29.7 per cent of the population. Of such males, 47.7 per cent are native whites of native parentage, 24.3 per cent native whites of foreign or mixed parentage, 26.7 per cent foreign-born whites, and 0.9 per cent negroes. Of the 94,345 foreign-born white males of voting age, 57,270, or 60.7 per cent, are naturalized. Males of militia age—18 to 44 years—number 267,497.

**Age** (Tables 7, 8, and 13).—Of the total population, 11.8 per cent are under 5 years of age, 20.9 per cent from 5 to 14 years, inclusive, 20.7 per cent from 15 to 24, 27.7 per cent from 25 to 44, and 18.7 per cent 45 years of age and over. The foreign-born white population comprises comparatively few children, only 3.4 per cent of this class being under 15 years of age, while 86.5 per cent are 25 years of age and over. Of the native whites of foreign or mixed parentage only 35.8 per cent are 25 and over, and of the native whites of native parentage, only 41.1 per cent.

The urban population shows a smaller proportion of children than the rural and a larger proportion of persons in the prime of life. Migration to the city explains this at least in part. Of the urban population, 32.7 per cent are from 25 to 44 years of age, inclusive, and of the rural population, 25.9 per cent.

**School attendance** (Table 9).—The total number of persons of school age—that is, from 6 to 20 years, inclusive—is 373,868, of whom 261,219, or 69.9 per cent, attended school. In addition to these, 9,077 persons under 6 and 5,533 of 21 and over attended school. For boys from 6 to 20 years, inclusive, the percentage attending school was 69.6; for girls, 70.2. For children from 6 to 14 years, inclusive, the percentage attending school was 90.2. The percentage for children of this age among native whites of foreign or mixed parentage was 90.8; among native whites of native parentage, 90.1; among negroes, 87.9; and among foreign-born whites, 85.1. (See Table I.) The percentage attending school for children from 6 to 14 was 91.9 in the urban communities, and 89.7 in the rural; for persons from 15 to 20, the percentages were 37.2 and 40.6, respectively.

**Illiteracy** (Table 10).—There are 18,009 illiterates in the state, representing 1.9 per cent of the total population 10 years of age and over, as compared with 2.3 per cent in 1900. The percentage of illiteracy is 7.1

among foreign-born whites, 0.6 among native whites, and 7.2 among negroes.

For all classes combined the percentage of illiterates is 2.6 in urban communities and 1.7 in rural. For each of the native white classes the rural percentage exceeds the urban, although the differences are inconsiderable; for the foreign-born whites, however, the urban percentage (10.1) exceeds the rural (5.7).

For persons from 10 to 20 years of age, inclusive, whose literacy depends largely upon present school facilities and school attendance, the percentage of illiteracy is very slight, only 0.5. (See Table I.)

**Marital condition** (Tables 11 and 14).—In the population 15 years of age and over, 40.9 per cent of the males are single and 29.4 per cent of the females. The percentage married is 54.2 for males and 61.9 for females; and the percentage widowed 3.8 and 7.8, respectively. The percentages of those reported as divorced, 0.6 both for males and for females, are believed to be too small, because of the probability that many divorced persons class themselves as single or widowed.

That the percentage single is so much smaller for women than for men is due partly to the excess of males in the population and partly to the fact that women marry younger. Thus 9.1 per cent of the females from 15 to 19 years of age are married, as compared with 0.5 per cent of the males; and 48.9 per cent of the females from 20 to 24 years are married, as compared with 19.1 per cent of the males. For those from 25 to 34 years the percentages are 78.5 and 60.6, respectively, while those from 35 to 44 are 86.6 and 79.2. Among those 45 and over the percentage married is higher for males than for females. That there is a larger proportion of widows than of widowers may indicate that men more often remarry than women, but, since husbands are generally older than their wives, the marriage relationship is more often broken by death of the husband than by death of the wife.

For the main elements of the population the percentages of married persons among those 15 years of age and over are as follows: Foreign-born whites, 66.6 for males and 74.5 for females; native whites of native parentage, 54.2 and 61.8, respectively; native whites of foreign or mixed parentage, 44.2 and 54; negroes, 48.1 and 59.2; Indians, 60.3 and 65.5.

These percentages by no means indicate the relative tendency of the several classes as regards marriage. To determine that, the comparison should be made by age periods, since the proportion married in any class is determined largely by the proportion who have reached the marrying age. Similarly, the proportion widowed depends largely on the proportion past middle life. The percentage married for males is slightly higher, and for females decidedly higher, in the rural than in the urban population.

**Dwellings and families**.—The total number of dwellings in Nebraska is 258,967, and the total number of families 265,549, indicating that in comparatively few cases does more than one family occupy a dwelling. (See Table I.) The average number of persons per dwelling is 4.6, and the average number per family, 4.5.
